

# Introducing WestJet Premium

We've reimagined the Plus experience with new innovative 2x2 seating in our front cabin. Enjoy soft, supple leather seats, with each seat offering 20% more room than our current Plus seats. You'll also enjoy new levels of privacy in redefined separate cabin space, with exclusive wine and menu offerings and extra inflight amenities—with our service complementing and elevating the experience.\*

Our Premium cabin features more room, more comfort and more relaxation—and of course, in-seat power to keep you connected.

Our new seats are starting on our Boeing 737 MAX aircraft this winter, and then throughout our fleet of Boeing 737s.
